

# Christopher Bruce Sabine,

*Full-Stack Developer and Visual Designer*

## Summary

I'm a web developer and visual designer in Toronto, creating for the web over the last 9 years. Currently, I'm working for a boutique advertising agency, Octopus Ink, creating unique websites with strategic brand execution and top-notch user experience. My design and technical experience bring a refreshing perspective to projects: I have an eye for typography, colour and style — plus a passion for writing efficient modern code.

## Occupation
